## // PATROL PROGRAM

The ARWEN® System provides front line officers with a variety of options that can help them fulfill their duty to manage risks and save lives.

ARWEN® offers in depth training and extensive support to complement an affordable, versatile system. This system can meet the needs of an agency or special unit by increasing the range of options available to them. With seven types of specialty munitions and two models of launchers ARWEN® is the industry leader in Public Safety responses involving impact and chemical munitions.

## // MANAGE RISKS & SAVE LIVES

Let ARWEN® help you incorporate a wide range of public safety responses into your existing patrol response model. Proven, effective and affordable – the versatile ARWEN® system provides a whole range of public safety response options to the people who need it most; the officers on patrol who daily risk their own lives protecting others.
